Aurora
WORKING TO ADVANCE ROAD WEATHER INFORMATION SYSTEMS TECHNOLOGY

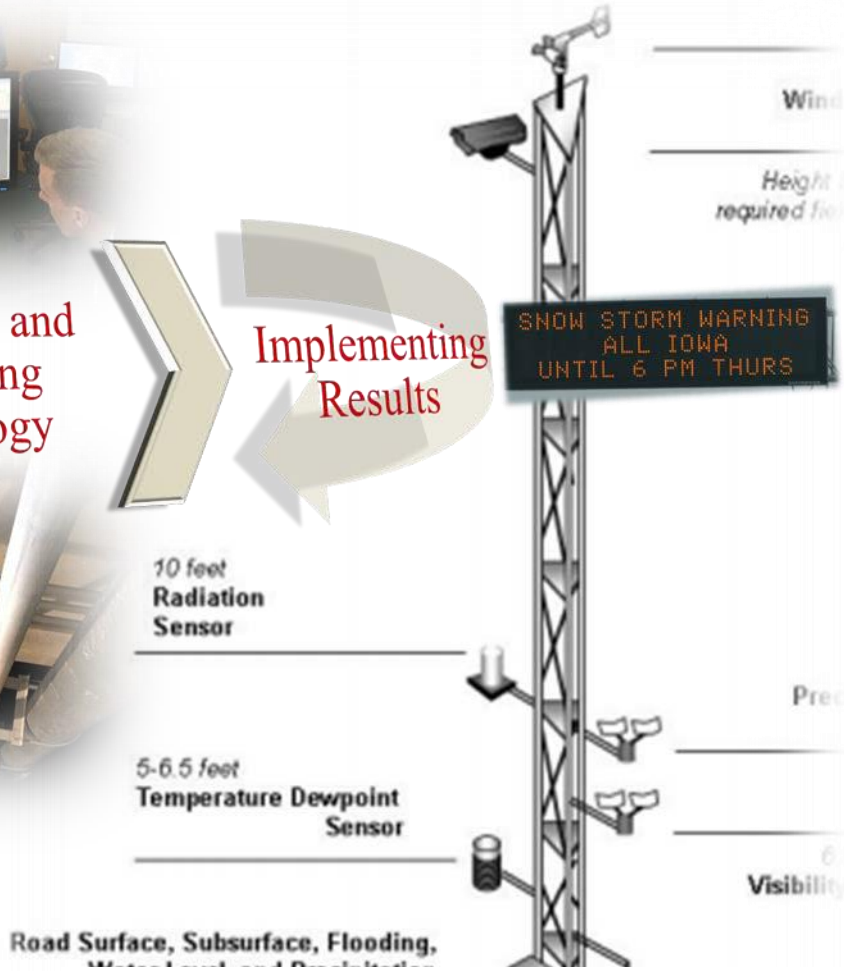
Aurora activities provide practical results in terms of:

Collaborative Research

Deploying and Evaluating Technology

Implementing Results



Facilitating information exchanges

Aurora
WORKING TO ADVANCE ROAD WEATHER INFORMATION SYSTEMS TECHNOLOGY

Aurora Focus:

- Here is what matters to us and needs to be solved
- We want to conduct new research and be a part of industry innovation
- Let's get it into the field, evaluate it, and use it
- Develop working relationships with peers, FHWA, NOAA, and Industry

The **Fall Aurora** meeting in:

Columbus, Ohio
October 16-18, 2018
